

Girls in STEM Symposium

Discover and Explore Your Passion

September 22, 2026

Lacawac Sanctuary Foundation invites you to save the date for our 2026 Girls in STEM Symposium!

This one-day immersive event is designed to inspire and empower young girls to pursue their passions in science, technology, engineering, and mathematics (STEM). Through interactive exhibits, engaging discussions, and Q&A sessions with STEM professionals, the symposium encourages students to explore new ideas, build confidence, and envision themselves as future leaders and innovators in STEM.

New this year: A keynote presentation by Ky the Chemist! Don't miss this opportunity to be inspired—learn more at kythechemist.com.

Save the Date

- 📅 Tuesday, September 22, 2026 | 8am-1:30pm
- 📍 Lacawac Sanctuary - Environmental Education Center
182 Sanctuary Road, Lake Ariel, PA 18436

Learn More & Register
